REMARKS

Applicants' attorney has noticed that a reference to the copending provisional application upon which applicants' claim of priority is based in part is not included in the first sentence of the specification as required by 37 CFR §1.78(4). Applicants made this claim of priority in their Declaration filed earlier in this case. This amendment does not touch the merits of this case, as references post-dating the priority date of the provisional application were considered during the prosecution of the application.

It is respectfully requested that entry of this amendment be approved without withdrawing the case from issue as permitted by 37 CFR §1.312.

Respectfully submitted,
MICHALAKIS AVERKIOU ET AL.
